Minecraft Server Dropbox Backup Creator

1. General

This program automatically creates backups of your minecraft server directory `source_path` that runs in screen `minecraft_server_screen_name` and uploads them to dropbox `dropbox_dest_path`.

It handles:

1. warning online players about the impeding shutdown
2. shutting down the server
3. compressing `source_path` into a `.tar`
4. restarting the server in `minecraft_server_screen_name`
5. uploading the backup `.tar` into `dropbox_dest_path`
6. removing the local backup `.tar`
7. removing all online backups except the newest `KEEP_BACKUPS`
